The Princess F50 delivers the ultimate on-water experience for a flybridge yacht, with an extreme focus on the use of space and dynamic performance. Designed with on-deck living in mind, easy transitioning between exterior and interior invites guests to move seamlessly from indoors to out. Her saloon features a U-shaped sofa and dining table which folds and lowers electrically converting to a coffee table for lounging. Her spacious foredeck boasts a luxurious sunpad, perfect for reclining and relaxing in a secluded bay. The well-proportioned flybridge features a spacious aft U-shaped seating/dining area, forward L-shaped seating to the portside which converts to a sunbed and twin helm seats. The dual-station instrumentation with Volvo-Garmin navigation and control systems enable her to be helmed from both the main deck and flybridge for precision maneuvering with an additional Joystick aft deck helm wing station. All in all, an exceptional on-water experience for a compact flybridge yacht.

Below deck, up to six guests can enjoy three beautifully appointed, spacious cabins, two of which are en-suite. All are filled with natural light from the sweeping hull glazing. The generous full beam owner's stateroom features a large double bed whilst the forward stateroom has the option of scissor berths that easily convert into a double berth for added flexibility. A further twin bunk guest cabin completes her spacious accommodation.
