CRAFTED IN PLYMOUTH, ENGLAND

Perched on the edge of the English Channel lies the city of Plymouth, where we established our home in 1965. Today Princess shipyards cover an area of over 1.1 million square feet, an area rich in British maritime heritage. In fact, South Yard, where our M Class superyachts are constructed, is a former naval yard dating back to the 17th century. From the outset, our goal has been to meticulously sculpt our yachts around our owners' enjoyment of them. Such dedication and attention to detail resonates deeply with our Plymouth craftspeople. Over 3,000 people, each possessing a mastery of their skill, fastidiously realise this vision in our shipyards. Through a culture of innovation, our yachts are not only some of the most technically-advanced in the world but also the most beautifully realised.

À margem do Canal da Mancha está situada a cidade de Plymouth, onde estabelecemos a nossa sede, em 1965. Atualmente, os estaleiros Princess abrangem uma área de mais de 10 hectares, uma área rica em tradição naval britânica. Na verdade, o South Yard, onde são construídos os nossos super iates da classe M, é um antigo estaleiro naval que remonta ao século XVII. Desde o princípio, nossa meta foi modelar meticulosamente os nossos iates conforme a satisfação que eles proporcionam aos seus proprietários. Tal dedicação e atenção aos detalhes repercutem profundamente em nossos artesãos de Plymouth. Mais de 3.000 pessoas, cada qual dominando com maestria a sua habilidade, empenham-se diligentemente, em nossos estaleiros, para concretizar essa visão. Por meio de uma cultura de inovação, nossos iates estão entre os mais avançados do mundo em termos tecnológicos e, também, entre os mais belos já criados.

Ubicada a orillas del Canal de la Mancha se encuentra la ciudad de Plymouth, en la que nos establecimos en 1965. Hoy, los astilleros de Princess ocupan una superficie de 100.000 m², una zona rica en patrimonio marítimo británico. De hecho, el Astillero Sur, en el que se construyen nuestros superyates M Class, es un antiguo astillero naval que se remonta al siglo XVII. Desde el principio, nuestro objetivo ha sido esculpir meticulosamente nuestros yates teniendo como eje principal su disfrute por parte de sus dueños. Esta dedicación y atención a los detalles está muy arraigada en nuestros artesanos de Plymouth. Más de 3.000 personas, todos maestros de su destreza, ponen en práctica esta visión trabajando con minuciosidad en nuestros astilleros. A través de una cultura de innovación, nuestros yates no solo están entre los más avanzados del mundo técnicamente, sino también entre los más hermosos.

普利茅斯坐落在英吉利海峡的美丽海岸线上，Princess造船厂1965年正是创立于此。如今的Princess造船厂占地约110万平方英尺，这里有着丰富的英国航海传承。事实上，负责建造我们M级超级游艇的南部基地，在十七世纪是海军专门造船的厂房，拥有丰厚的造船历史与文化。我们的初心，就是要不断提升客户的游艇乐趣为目标，满足不同地域环境要求，用心打造每一艘游艇。对细节的无比专注与用心在我们普利茅斯的造船能工巧匠心中产生了深深的共鸣。我们拥有超过3,000名造船专才，他们发挥各自所长，共同实现我们美好愿景而孜孜奋斗。凭借创新文化，我们的游艇在世界上不仅做到了技术最先进，而且更可堪称最精美的艺术品。

Am Ufer des Ärmelkanals liegt die Stadt Plymouth, in der wir uns 1965 niedergelassen haben. Die Princess-Werften befinden sich heute auf einem über 10 Hektar großen Gelände mit einem reichen maritimen Erbe. Die Südwerft, in der unsere M Class superyachts gebaut werden, ist eigentlich eine ehemalige Marinewerft aus dem 17. Jahrhundert. Schon von Anfang an bestand unser Ziel darin, unsere Yachten im Hinblick auf das Vergnügen und den Fahrspaß ihrer zukünftigen Besitzer sorgfältig zu entwerfen. Dieses Engagement und unsere Aufmerksamkeit bis ins Detail wirken sich stark auf unsere Bootsbauer in Plymouth aus. Über 3.000 Mitarbeiter, von denen jeder einzelne ein Meister seines Handwerks ist, geben dieser Vision in präziser Kleinarbeit in unseren Werften Form. Aufgrund unserer Innovationskultur gehören unsere Yachten nicht nur zu den technisch fortschrittlichsten Yachten der Welt, sondern gleichzeitig auch zu den am schönsten gebauten Yachten.

Experience space akin to a megayacht as you enter her main deck saloon and witness a line of sight right through to the forward window. Ascend the internal staircase to the upper deck and another unique experience awaits: a fully enclosed and climate-controlled Sky Lounge. Taking pride of place on her lower deck is the full beam Master Stateroom with en suite, complemented by her Forward Stateroom with walk-in wardrobe and en suite bathroom. Additional port and starboard guest cabins can each be configured with two single beds or one double bed, whilst generous crew quarters complete her extensive accommodation.

Vivencie um espaço semelhante a um mega-iate assim que você entrar no salão de seu convés principal e testemunhe o horizonte diretamente da janela de proa. Suba a escada interna para o convés superior e mais uma experiência única o espera: uma Sky Lounge totalmente fechada e climatizada. Desfrute de seu convés inferior com uma sala do capitão tipo suite e que ocupa a largura total do iate, complementada por um camarote de proa tipo suite e com guarda-roupa tipo walk-in. As cabines de hóspedes de bombordo e boreste podem ser individualmente configuradas com duas camas de solteiro ou uma cama de casal, enquanto os generosos alojamentos para a tripulação completam suas amplas acomodações.

Experimente un espacio similar al de un mega-yate al entrar en su salón principal de cubierta y sea testigo de una línea de visión que se extiende hasta la cristalera de proa. Suba la escalera interna hasta la cubierta superior y le espera otra experiencia única: un Salón superior totalmente cerrado y climatizado. Ocupando un lugar de honor en su cubierta inferior, se encuentra el Camarote Principal que ocupa toda la manga con baño en suite, complementado por un Camarote de Proa con armario vestidor y baño en suite. Los camarotes de invitados adicionales de babor y estribor se pueden configurar con dos camas individuales o una cama doble, mientras que los generosos camarotes de la tripulación completan su amplio alojamiento.

进入主甲板客厅，体验类似巨型游艇的空间，一切一览无余，直至前窗。沿着内部楼梯上行，来到上层甲板，则是另一番独特体验：全封闭式空调观景台。在下层甲板的瞩目位置是带套房的全宽主卧舱，配以带步入式衣柜和套房浴室的船首客舱。此外，左舷和右舷客舱可分别放置两张单人床或一张双人床，宽敞的船员舱提供宽敞的住宿空间。

Beim Betreten des Salons auf dem Hauptdeck eröffnet sich Ihnen ein Raumangebot, das einer Megayacht in nichts nachsteht - die Sichtlinie zieht sich geradeaus bis durch das Vorderfenster zum Horizont. Eine innenliegende Treppe führt Sie hinauf auf das Oberdeck, wo ein weiteres, einmaliges Erlebnis auf Sie wartet: eine vollständig geschlossene, klimatisierte Sky Lounge. Im Unterdeck erstreckt sich die Eignerkabine mit eigenem Bad über die volle Breite der Yacht, und im Bug befindet sich eine weitere Kabine mit begehbarem Kleiderschrank und eigenem Badezimmer. Die zusätzlichen Gästekabinen an Backbord und Steuerbord können individuell mit zwei Einzelbetten oder einem Doppelbett konfiguriert werden, und ein großzügiger Crewbereich ergänzt das exzellente Unterkunftsangebot dieser Yacht.

RECOGNITION

Our priority is to be considered the best by our owners, but recognition by independent experts through a number of prestigious awards has given Princess and our craftspeople a tremendous sense of pride.

A nossa prioridade é sermos considerados os melhores pelos proprietários de nossos iates, mas o reconhecimento por parte de especialistas independentes, através de vários prêmios renomados, trouxe à Princess e aos nossos artesãos um tremendo orgulho.

Nuestra prioridad es que los dueños de nuestros barcos nos consideren los mejores; pero el reconocimiento de expertos independientes gracias a nuestros numerosos premios hace que Princess y nuestros armadores nos sintamos tremendamente orgullosos.

我们最渴望的是客户的褒奖，而不仅仅是业内专家颁发给 Princess 和我们的工匠 的各类荣誉奖项所带来的巨大成就感。

Zwar ist es für uns am wichtigsten, dass unsere Arbeit von den Bootsbesitzern gewürdigt wird, doch die Würdigung seitens unabhängiger Experten in Form von renommierten Auszeichnungen macht Princess und unsere Bootsbauer unglaublich stolz.

* Displacements are calculated with 50% fuel and water with liferaft but with no optional equipment fitted or other gear. † Maximum speeds will vary depending on cleanliness of hull, condition of sterngear, loading of craft, water and air temperatures, sea conditions and other factors. Speed estimates are therefore given in good faith but without warranty or liability on the part of Princess Yachts Limited. Craft illustrated in this brochure may be fitted with certain optional equipment. Specifications may be changed at any time without notice or liability. USA Specification ‡ Princess yachts built for use in North America are certified by the National Marine Manufacturer's Association (NMMA) to comply with safety recommendations set forth by the American Boat and Yacht Council (ABYC) and with standards established by the United States Coast Guard Office of Boating Safety. In addition, certain other specifications, which vary by model, are upgraded on Princess yachts built for use in North America. Thus, specifications and equipment will vary from the information listed in the brochure for North American Princess yachts (e.g. air-conditioning and an upgraded generator will be included as standard for all North American models and electric cooking facilities will be supplied in place of gas systems). Please consult the USA Specification Brochure for full details regarding the North American specifications for individual models.

* As deslocacões são calculadas com 50% de combustível e água com bote salva-vidas mas sem equipamentos opcionais instalados ou outros equipamentos. † As velocidades máximas irão variar conforme a limpeza do casco, a condição do eixo propulsor da popa, a carga da embarcação, as temperaturas da água e do ar, as condições do mar e outros fatores. As estimativas de velocidade são portanto apresentadas de boa-fé, mas sem garantia ou responsabilidade por parte da Princess Yachts Limited. As embarcações ilustradas neste livro podem estar equipadas com alguns equipamentos opcionais. As especificações podem ser alteradas a qualquer momento, sem aviso prévio ou responsabilidade por parte do fabricante. Especificação dos EUA ‡ Os iates Princess produzidos para uso na América do Norte são certificados pela National Marine Manufacturer's Association (NMMA), para ficarem em conformidade com as recomendações de segurança estabelecidas pelo American Boat and Yacht Council (ABYC) e com as normas estabelecidas pela United States Coast Guard Office of Boating Safety. Além disso, algumas outras especificações, que variam conforme o modelo, são aprimoradas nos iates da Princess produzidos para uso na América do Norte. Assim, especificações e equipamentos irão diferir em relação às informações listadas no livro para os iates da Princess destinados à América do Norte (p. ex., condicionamento de ar e um gerador aprimorado serão incluídos como padrão, para todos os modelos norte-americanos, e para a cozinha serão fornecidas instalações elétricas em vez de sistemas a gás). Consulte o livro de Especificações dos EUA para obter todos os detalhes relativos às especificações de modelos individuais para uso na América do Norte.

* Los desplazamientos se calculan con un 50% de combustible y agua con balsa salvavidas, pero sin equipamiento opcional ni otro tipo de equipamiento. † Las velocidades máximas varían dependiendo de la limpieza del casco, el estado de la estructura de proa, la carga de la embarcación, las temperaturas del agua y el aire, el estado del mar y otros factores. Las estimaciones de velocidad se ofrecen, por tanto, de buena fe pero sin que Princess Yachts Limited asuma garantía u obligación alguna respecto de las mismas. La embarcación que aparece en este folleto puede llevar equipamiento opcional. Las especificaciones podrán variar periódicamente sin previo aviso y sin que por ello se incurra en responsabilidad alguna. Especificación para EE.UU. ‡ Los yates Princess construidos para su uso en Norteamérica están certificados por la Asociación Nacional de Armadores de EE.UU. (NMMA) para cumplir con las recomendaciones de seguridad establecidas por el Consejo Americano de Barcos y Yates (ABYC) y con las normas que dicta la Oficina de Guardacostas de EE.UU. para la navegación. Además, otras especificaciones, que varían de unos modelos a otros, se mejoran en los yates construidos para utilizarse en Norteamérica. Por consiguiente, las especificaciones y el equipamiento serán distintos a los indicados en el folleto de los yates Princess para Norteamérica (ej. el aire acondicionado y un generador mejorado se incluirán como características estándar en todos los modelos norteamericanos, que además contarán con cocina eléctrica y no de gas). Consulte el folleto de especificaciones de EE.UU. para conocer detalladamente las de cada uno de los modelos para Norteamérica.

* 排量计算是基于装有 50% 的燃油, 水和救生筏, 并未安装任何选配设备, 且船上无其他装置的情况。† 最高航速会存在差异, 具体取决于船体清洁度、尾传动装置状况、游艇载荷、水及空气温度、海况及其他因素。因此, 速度估计值仅出于诚信善意而提供, 对 Princess Yachts Limited 不构成保证或责任。本手册中所示游艇可能会装备某些可选设备。规格可能会随时更改, 恕不另行通知或向阁下负责。美国规格 ‡ 专为北美洲建造的 Princess 游艇通过了美国船舶制造商协会 (NMMA) 的认证, 符合美国船艇理事会 (ABYC) 的安全建议以及美国海岸警卫队船舶安全局所制订的标准。此外, 为北美洲建造的 Princess 公主游艇可能在不同船型中有一些不同的配置。因此, 面向北美洲的 Princess 游艇的规格和设备可能会与本手册所列的信息有所不同 (如空调和升级发电机在所有北美洲型号上均为标配, 并且将用电热烹调设施代替燃气系统)。有关个别型号的北美洲规格详情, 请参见美国规范手册。

* Die Verdrängungen werden mit einer Beladung von jeweils 50 % Kraftstoff und Wasser mit Rettungsboot berechnet, jedoch ohne optional eingebaute Ausstattung oder weitere Ausrüstung. † Die Höchstgeschwindigkeiten hängen von der Sauberkeit des Schiffsrumpfs, dem Zustand der Heckausstattung, der Schiffsladung, der Wasser- und Lufttemperatur, dem Seegang und weiteren Faktoren ab und können daher voneinander abweichen. Die Geschwindigkeiten werden in gutem Glauben geschätzt, aber ohne jegliche Garantie oder Verbindlichkeit seitens Princess Yachts Limited. Das in dieser Broschüre dargestellte Schiff kann mit bestimmter optionaler Ausstattung versehen werden. Die technischen Daten können ohne vorherige Ankündigung oder Haftung jederzeit geändert werden. Technische Daten für die USA ‡ Zur Benutzung in Nordamerika gebaute Princess-Yachten werden von der Nationalen Marineherstellervereinigung (NMMA, National Marine Manufacturer's Association) zertifiziert und entsprechen damit den Sicherheitsempfehlungen und Standards, so wie sie vom Amerikanischen Boots- und Yachttrat (ABYC, American Boat and Yacht Council) und vom Küstenwachenbüro für Bootsfahrtsicherheit in den Vereinigten Staaten entwickelt wurden. Außerdem werden bestimmte weitere technische Daten, die speziell zur Verwendung bei in Nordamerika gebauten Princess-Yachten aufgestellt wurden, aktualisiert und können je nach Modell unterschiedlich ausfallen. Die technischen Daten und die Ausstattung weichen somit von den in der Broschüre für nordamerikanische Princess-Yachten aufgeführten Angaben ab (z. B. Klimaanlage und ein überarbeiteter Generator werden standardmäßig in alle nordamerikanischen Bootsmodele eingebaut und elektronische Kocheinrichtungen werden statt Gaskochsystemen geliefert). Für die vollständigen technischen Daten für nordamerikanische Einzelmodelle konsultieren Sie bitte die Broschüre mit technischen Daten für die USA.
